# The Mayune Vision

The world, our lives, our views, needs and expectations are changing and evolving every day. At Mayune, we help businesses of all sizes and industries to showcase the value of their service or product in our new and ever-expanding digital age.

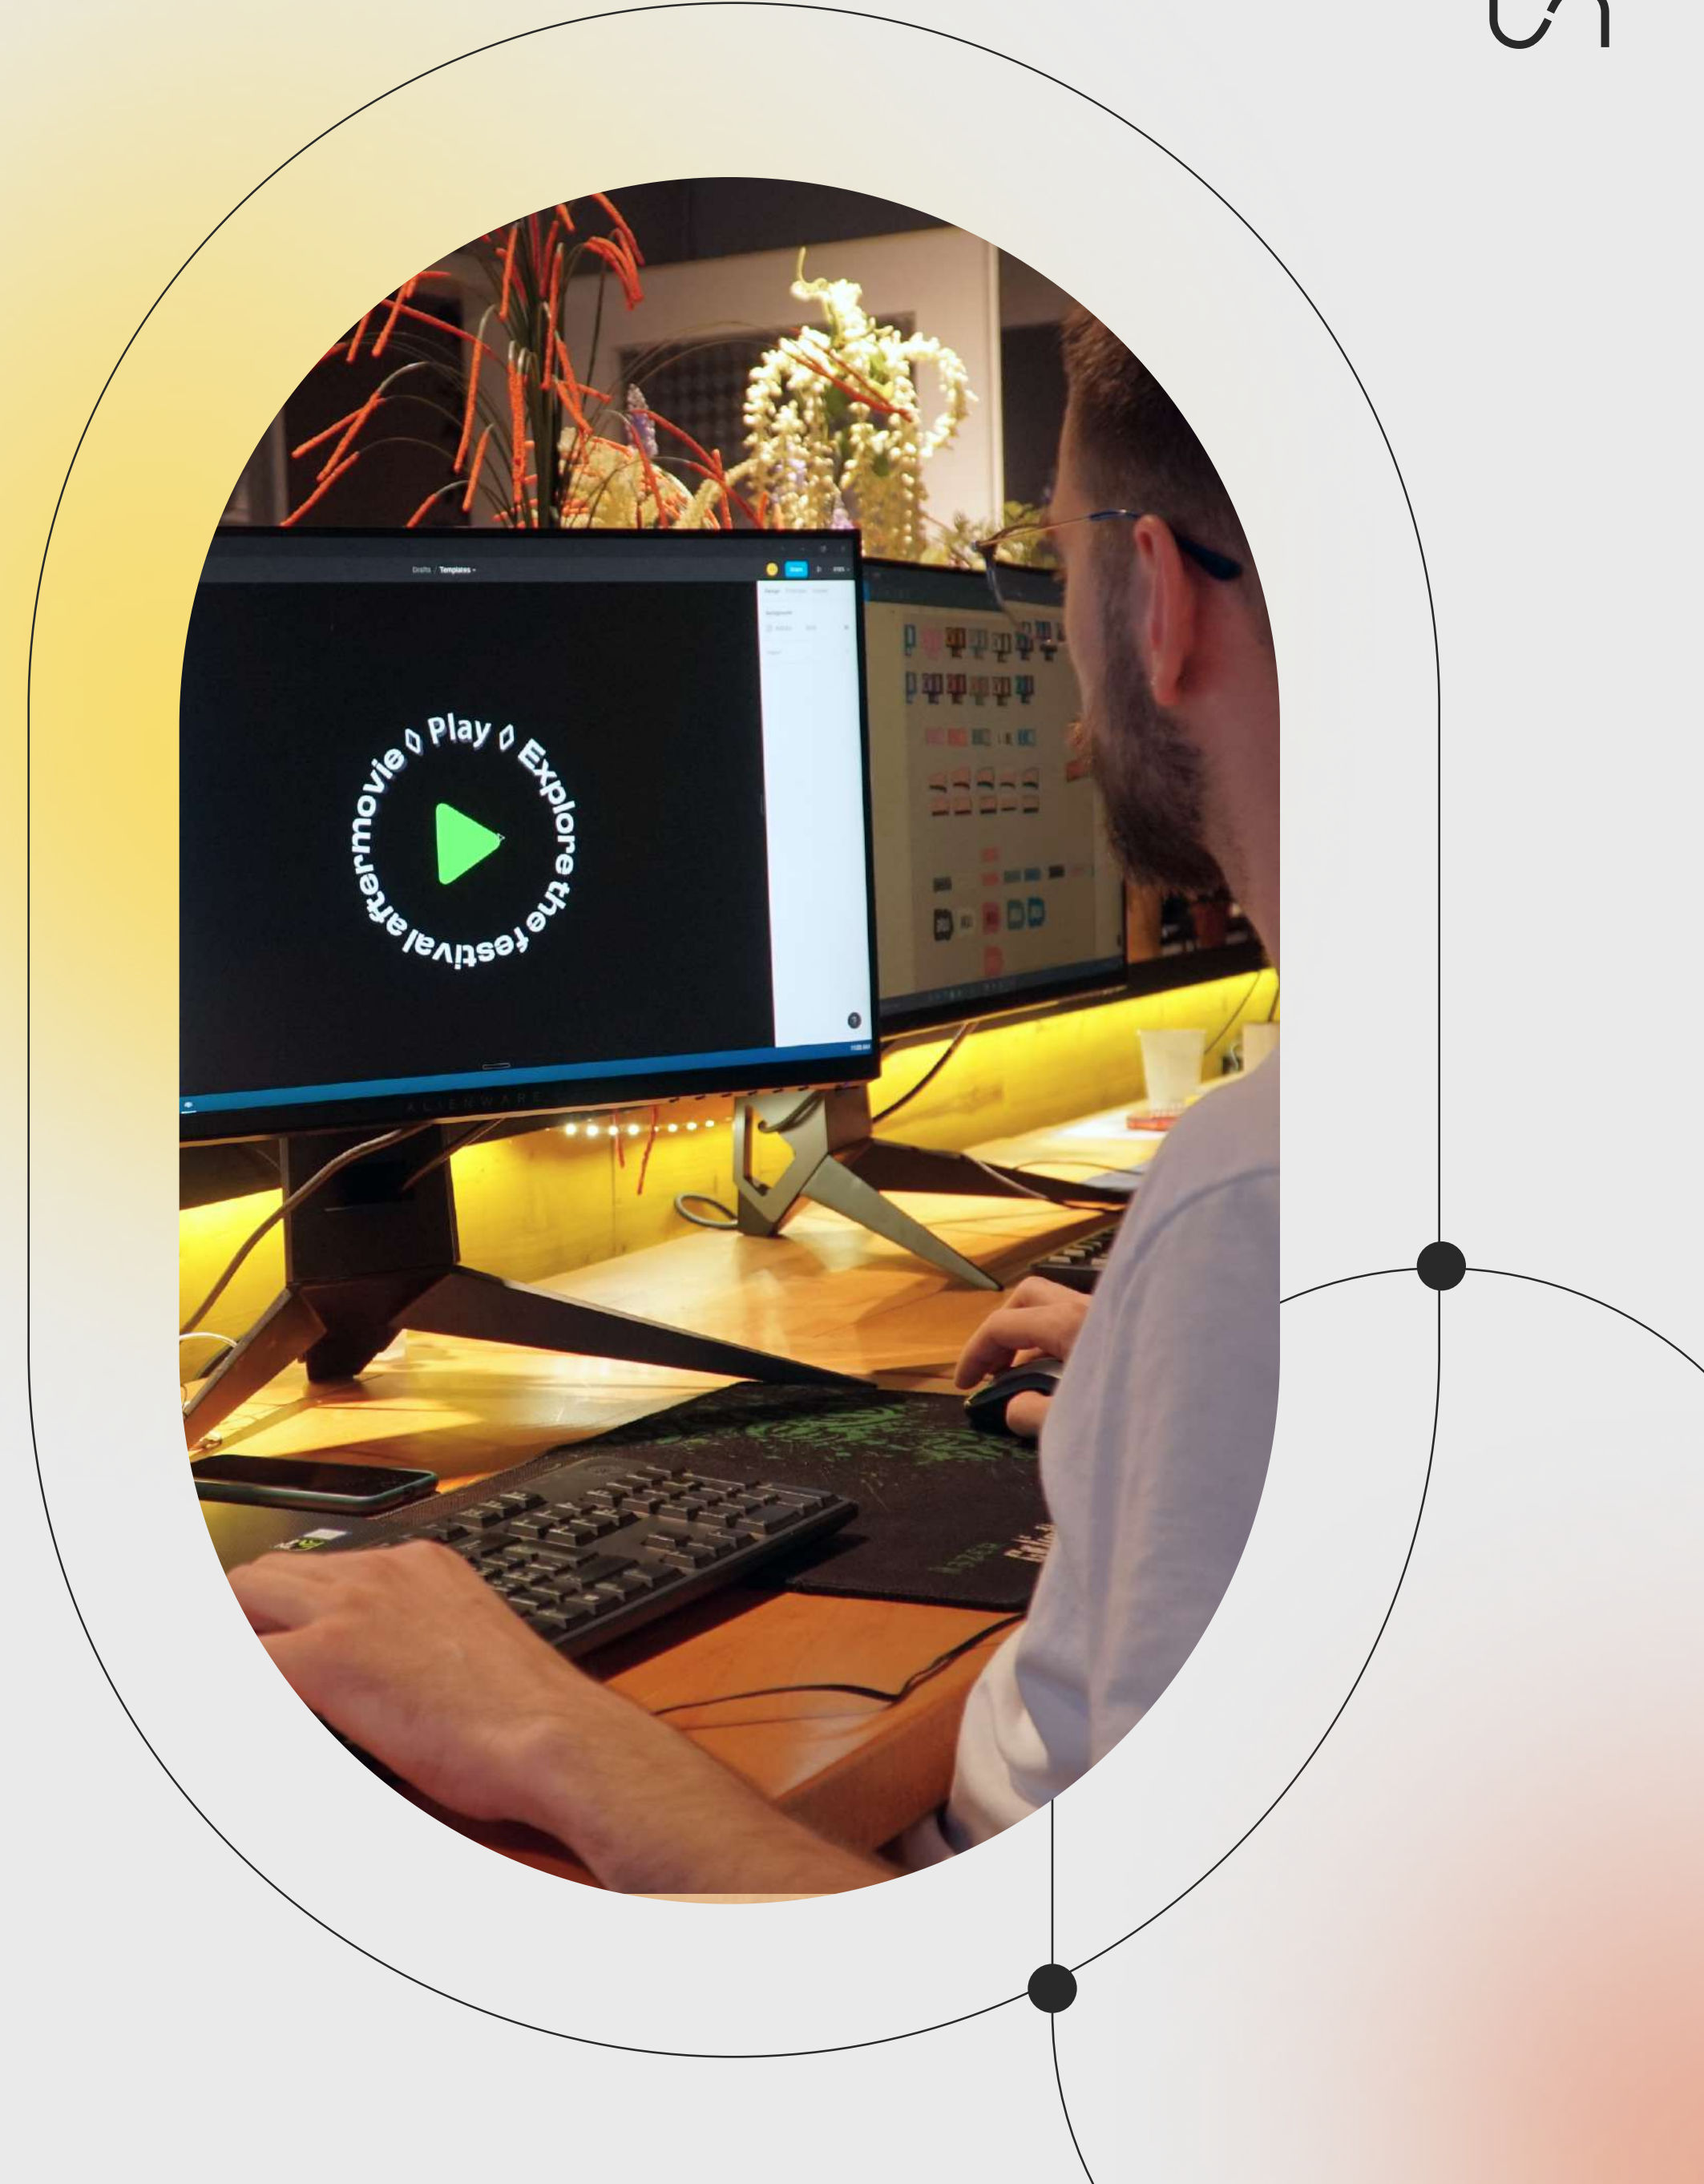

*Out with the old, in with the new? Well, sort of...*

We believe that aesthetics and taste in digital design evolves and changes just as it does in any other creative industry, be it fashion, interior design, or even automotive design.

With that in mind, we aim a lot of our focus on the experience of the end user, on the core values and goals of our clients, and on the details that make or break a visually compelling story.

And that's why we created Mayune, to offer a premium, hassle-free service with world-class visuals and online solutions.

# Portfolio

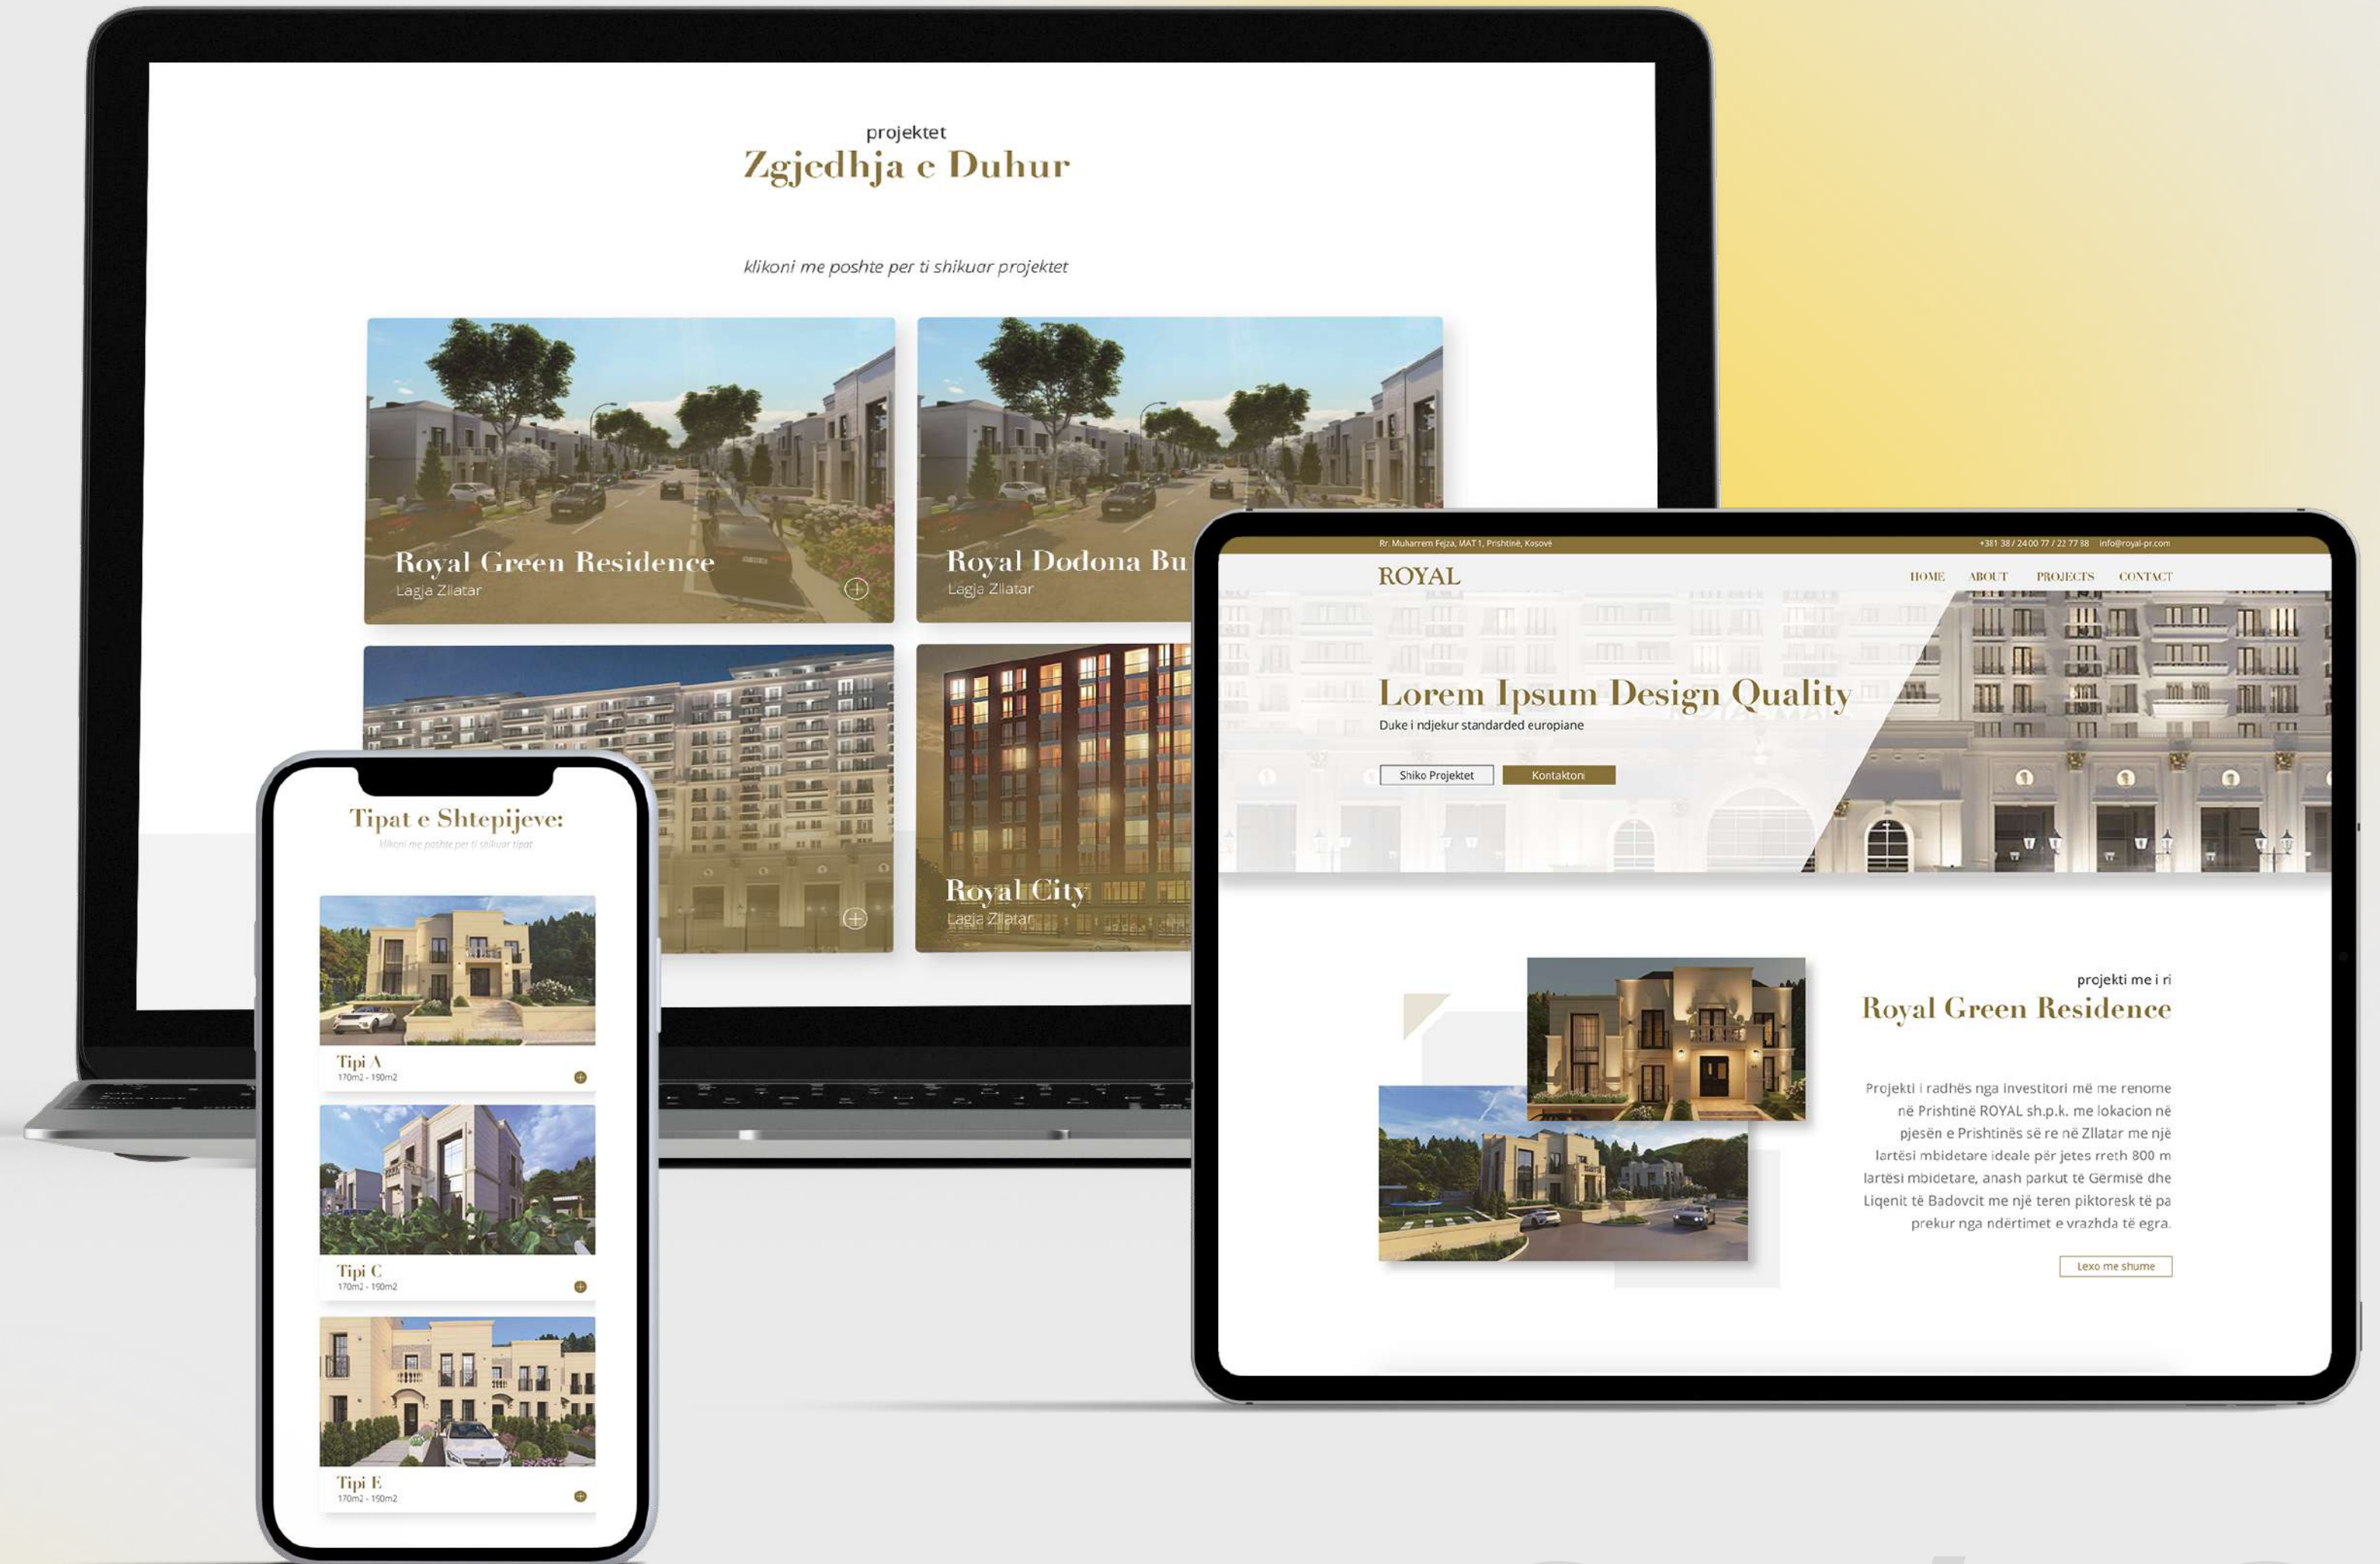

# UI/UX

## Royal Green Residence

Royal Green Residence is a multi-acre residential project which we had the pleasure of creating the client-facing online experience for.

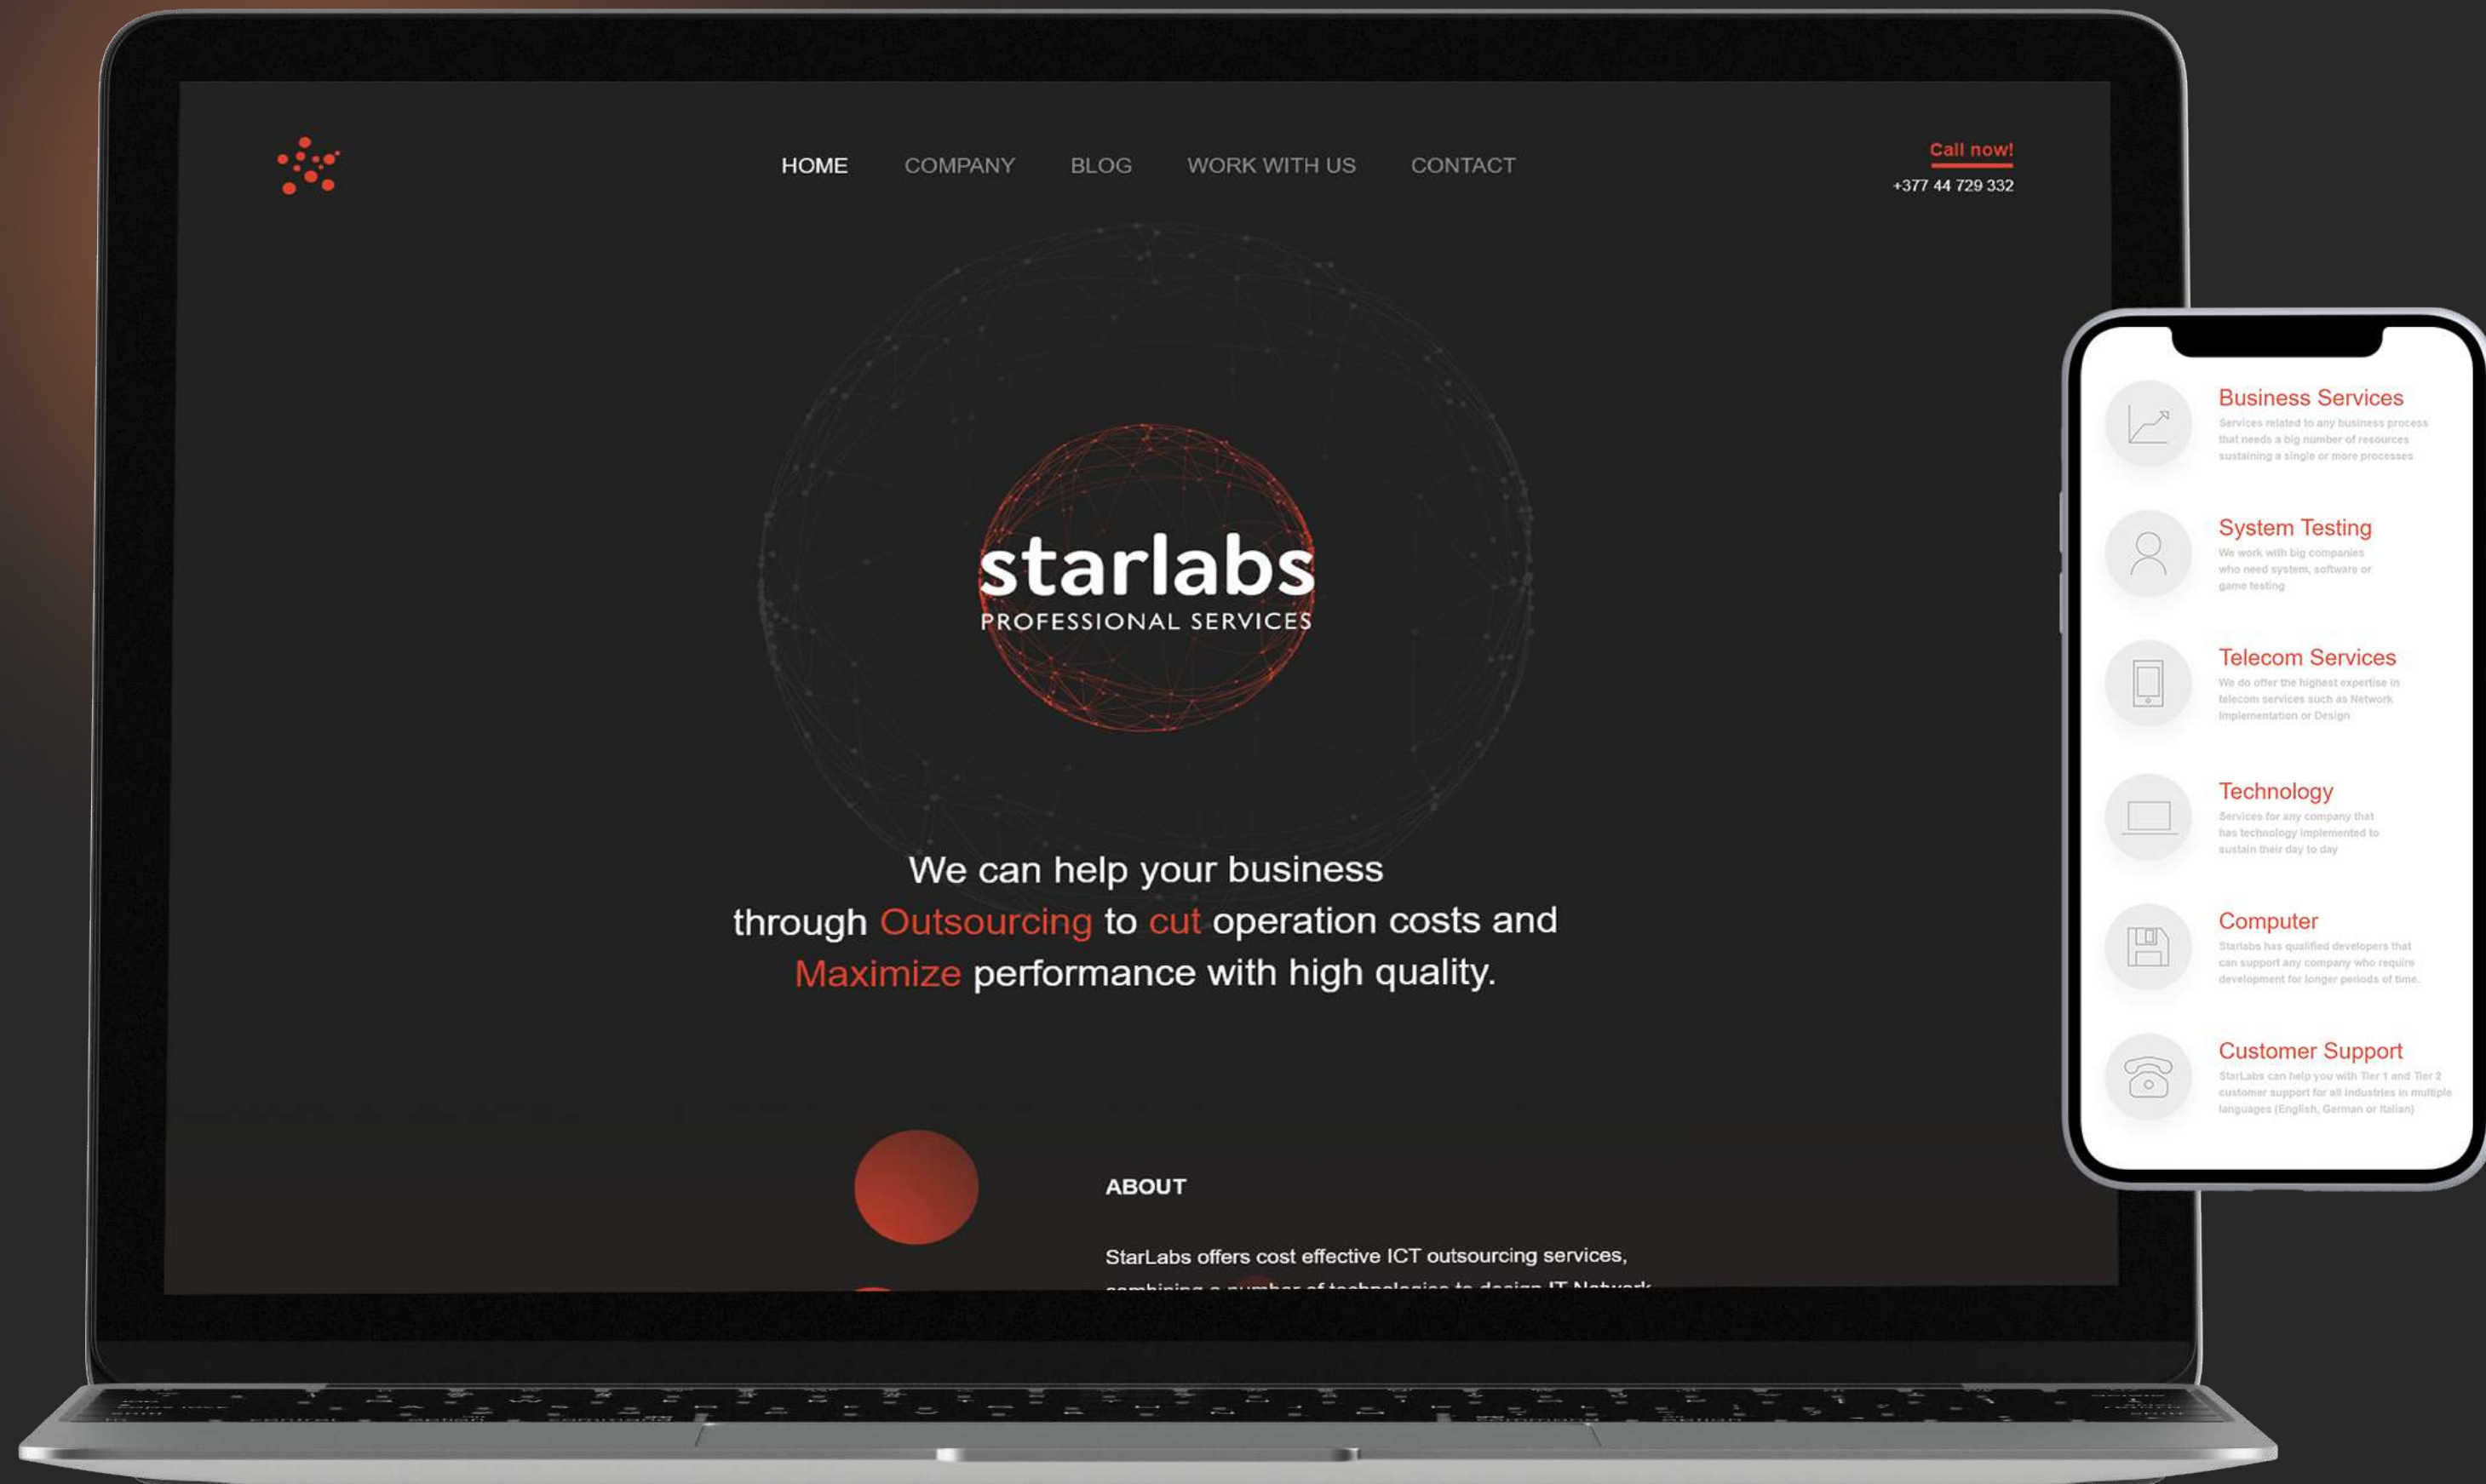

Many perspective buyers engaged with the website we custom designed and developed, and the ease of use and quick access to info had a great impact on interest and ultimately sales.

check it out at  
[www.royal-pr.com](http://www.royal-pr.com)

01/10

# UI/UX Starlabs

Starlabs is an international IT Outsourcing and Development company specializing in Mobile and Web App Development.

They needed a quick revamp of their brand identity and front-facing website design and development to attract perspective clients globally.

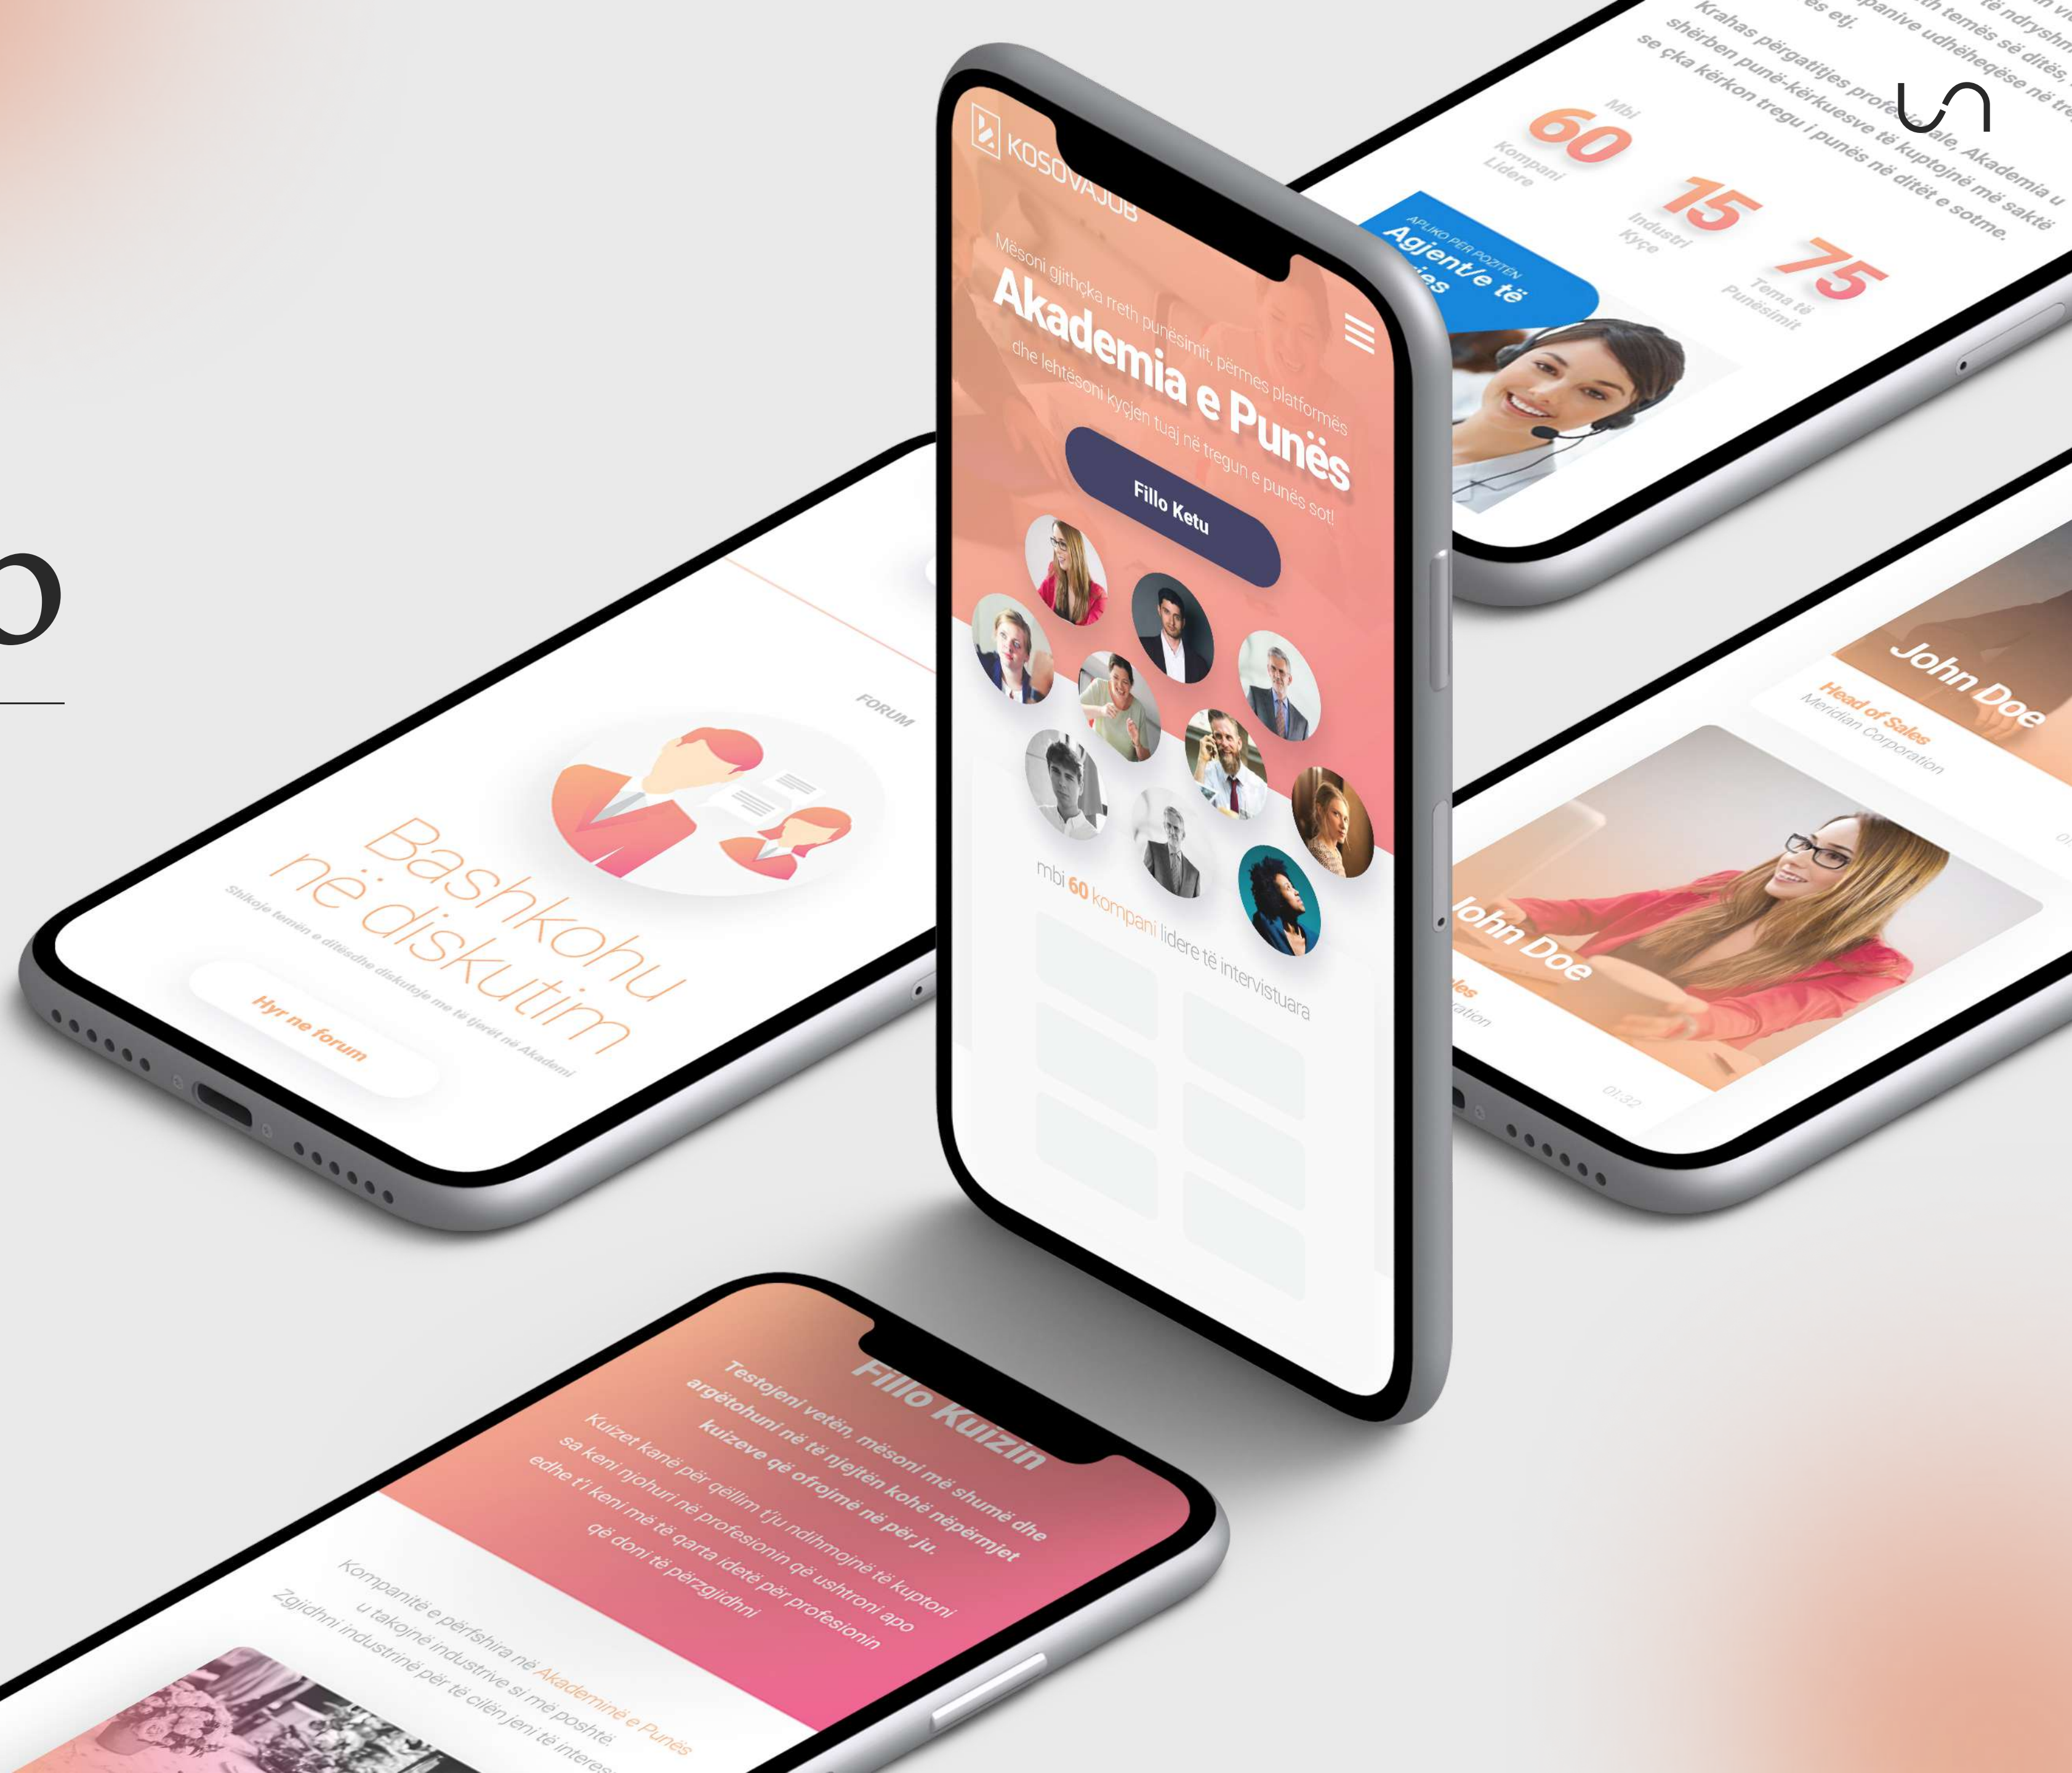

check it out at  
[www.starlabs.dev](http://www.starlabs.dev)

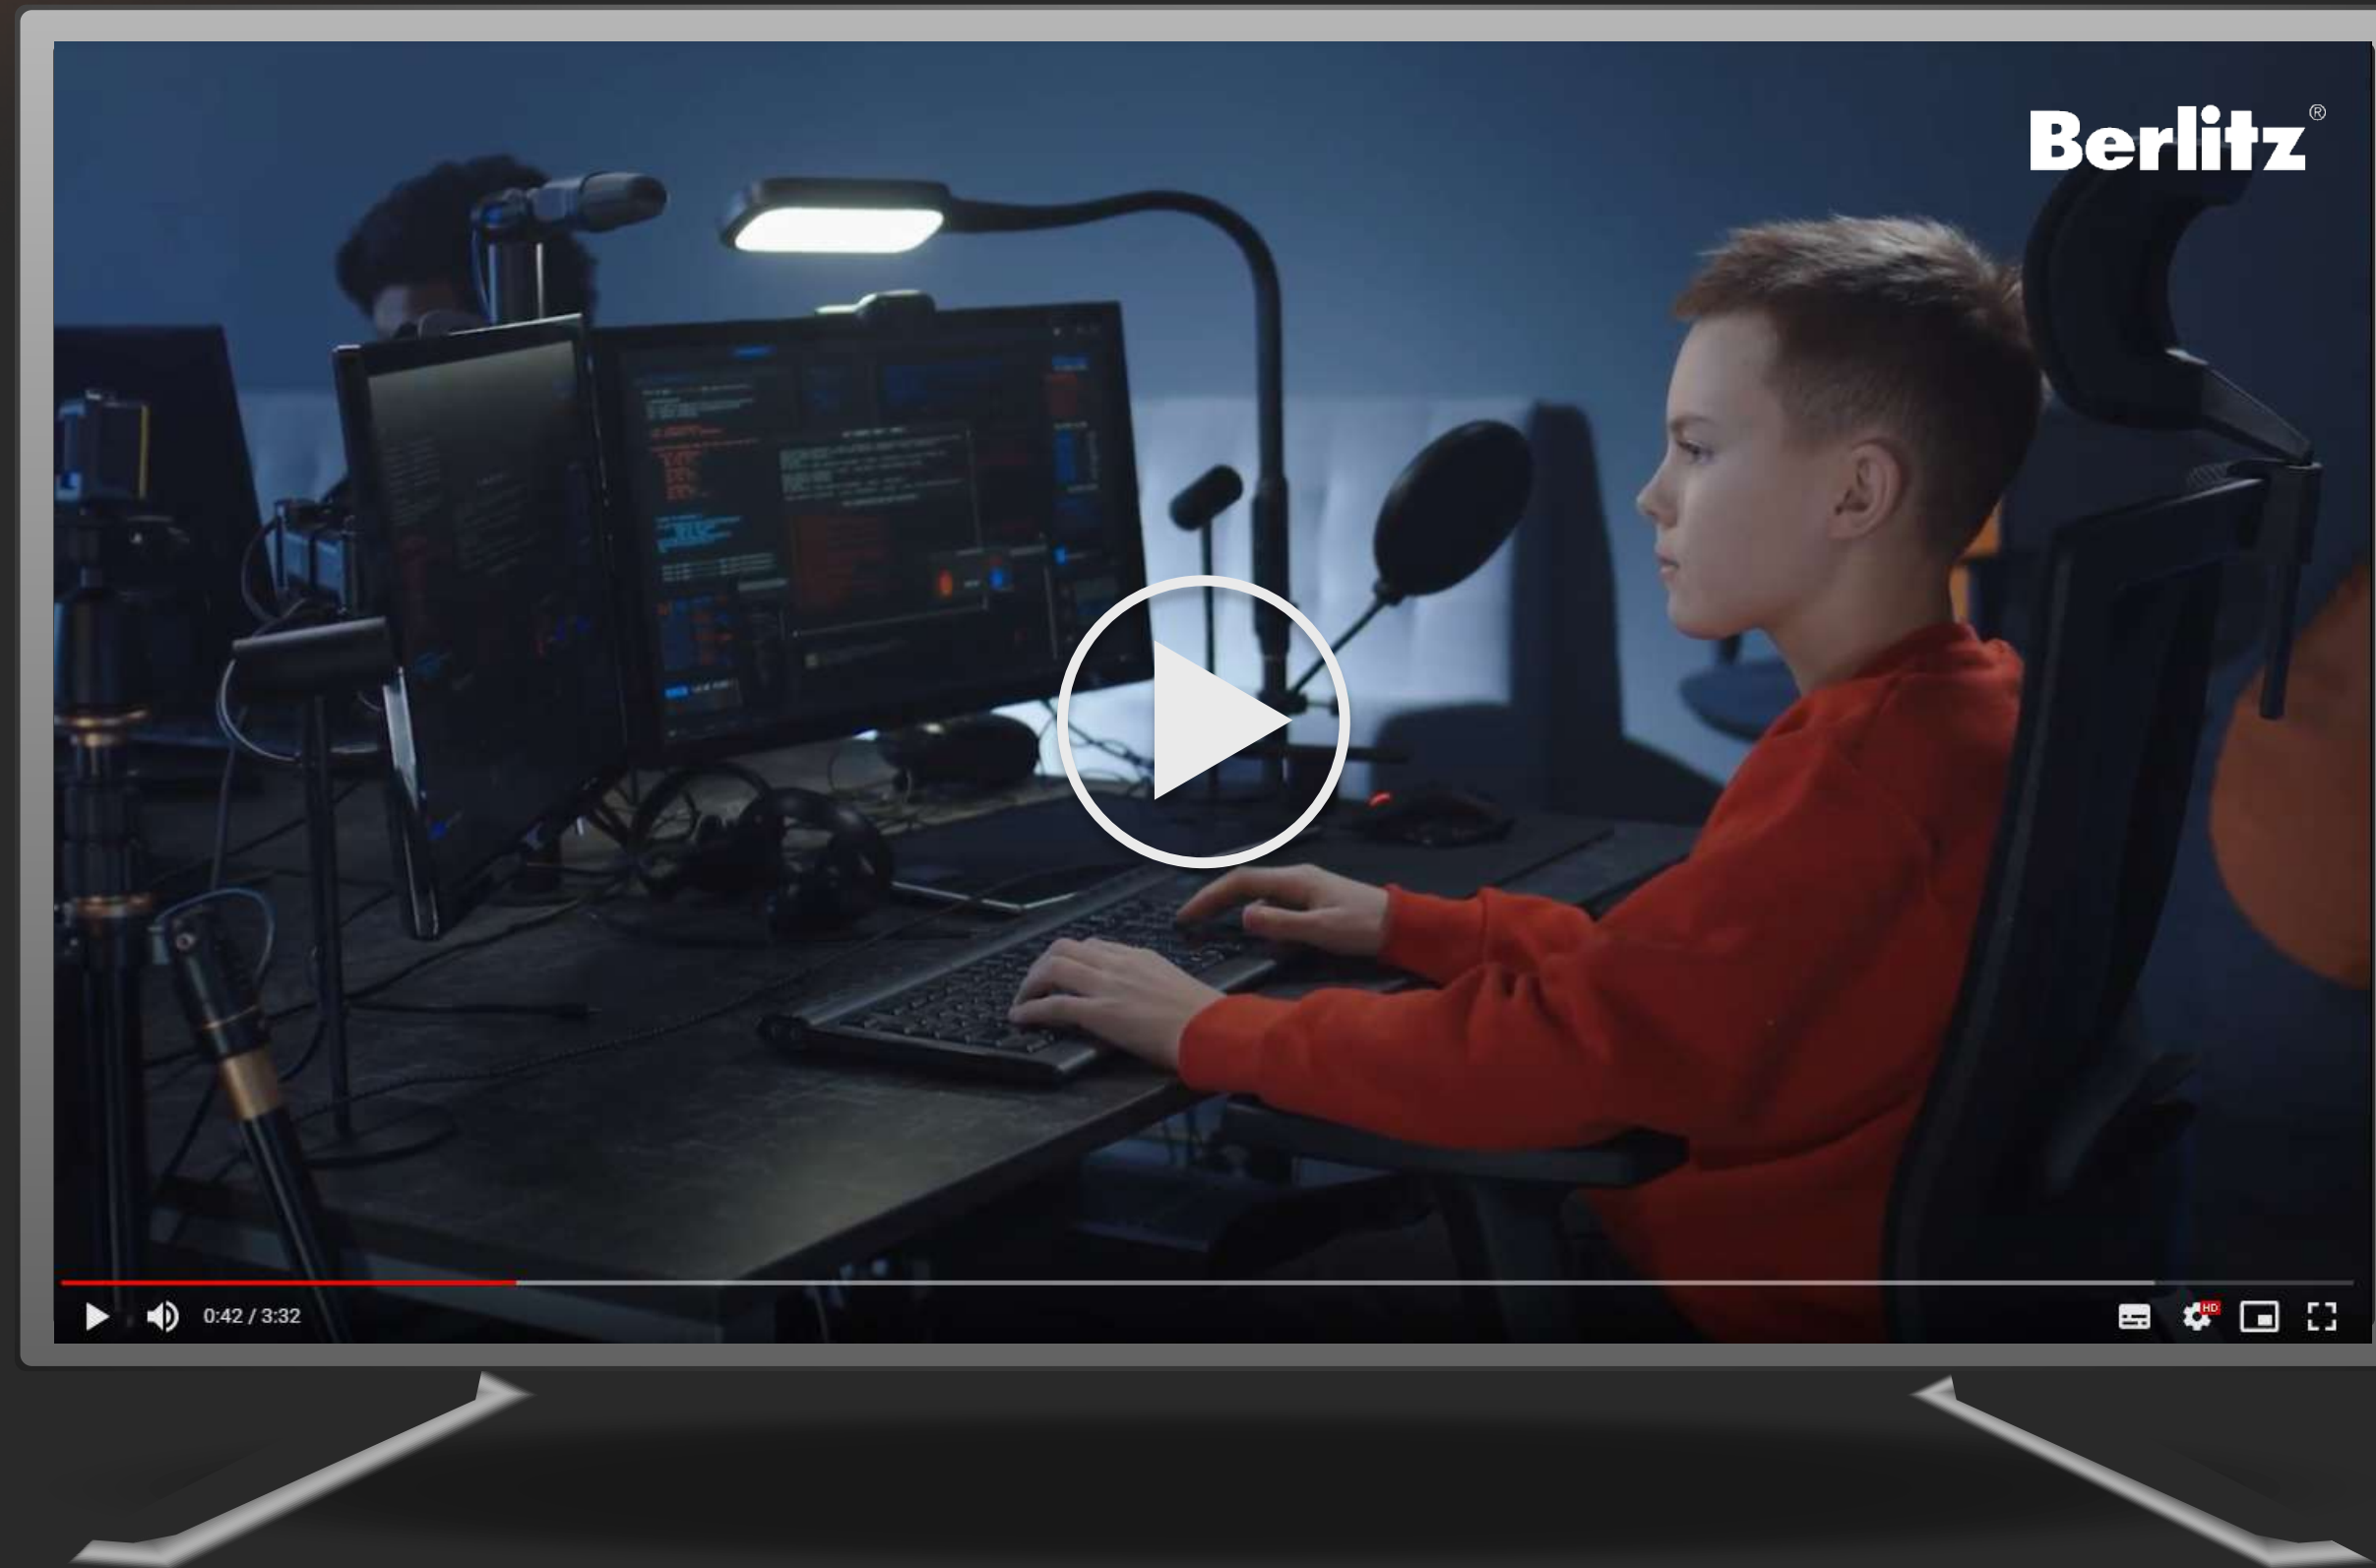

# UI/UX Kosova Job

The largest job posting platform in Kosovo, we helped expand their user reach by designing their Job Academy Platform aimed at newcomers to the job market looking to gain knowledge.

The UI/UX was designed to feel modern, easy to use, and welcoming.

# Video Production Berlitz

We partnered with Digital School to create a TV Commercial for Berlitz in Germany for their new digital class offerings.

This was showcased both online and in TV and was effective in raising interest about the offerings and also showcasing the future of education.

check it out at  
<https://youtu.be/cBFiAAdVBAG>

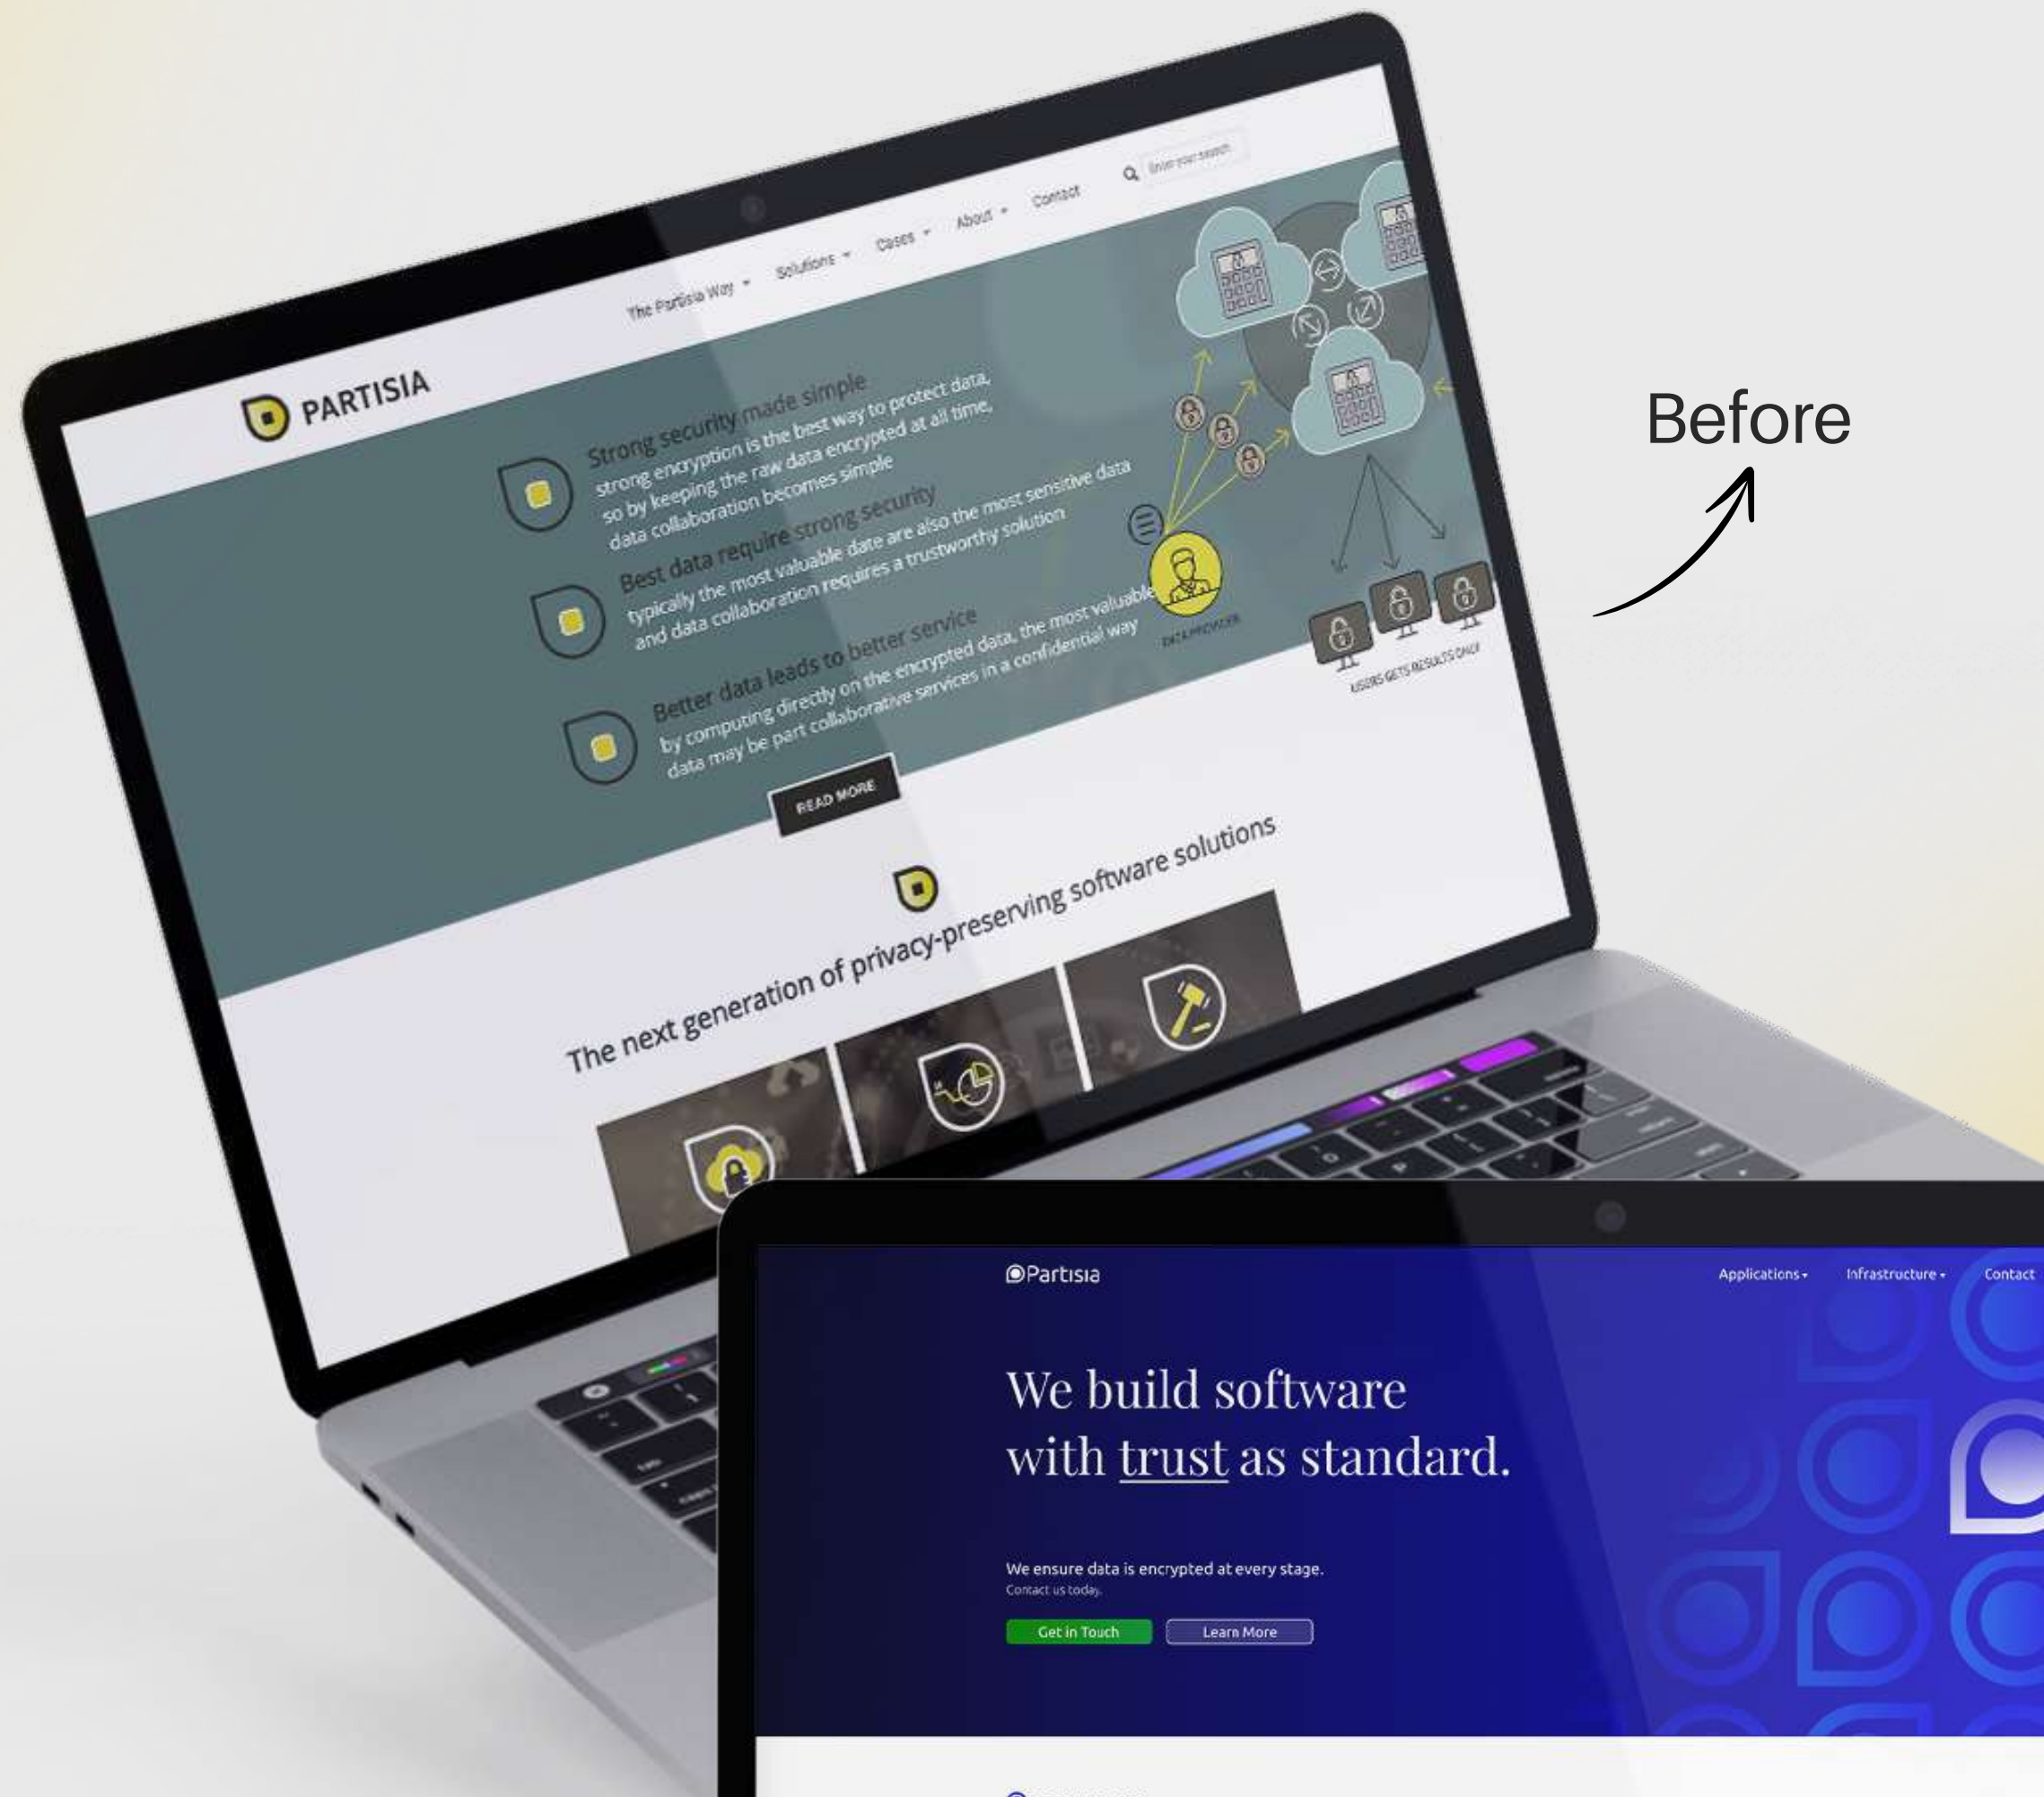

# UI/UX Partisia

Partisia is a data encryption company based in Denmark. They have a loyal client base and needed to modernize their look and feel in order to attract more clients.

Mayune created a fresh modern brand based off their existing symbol, and crafted a totally new UI/UX experience which helped them gain more reach in the market.

05/10

Before

After

# Social Media Mayune

Why not show off a bit of the fun and excitement at our very own Instagram page. We have lots of ideas when it comes to online marketing. The style is something we can decide on together, whereas the content is carefully planned out and a solid action plan made.

# Packaging Cigarettes

We really enjoyed working on this project, where we ended up designing over 50 brands with unique names and styling.

Our client ended up picking one of the designs to be finalized, after going through the technical and market research.

# Presantation Sapphirelabs

08/10

This was a pitch deck crafted for Sapphirelabs and was presented at CreditSuisse HQ.

We went with a minimal dark theme which is inline with their branding, as well as key design elements to guide the viewers through the presentation.

# Brand Book Socora

This is the brand we created for Socora, an online training and resources platform.

Many combinations and styles were proposed before ending up with the final brand you see on the right hand side.

09/10

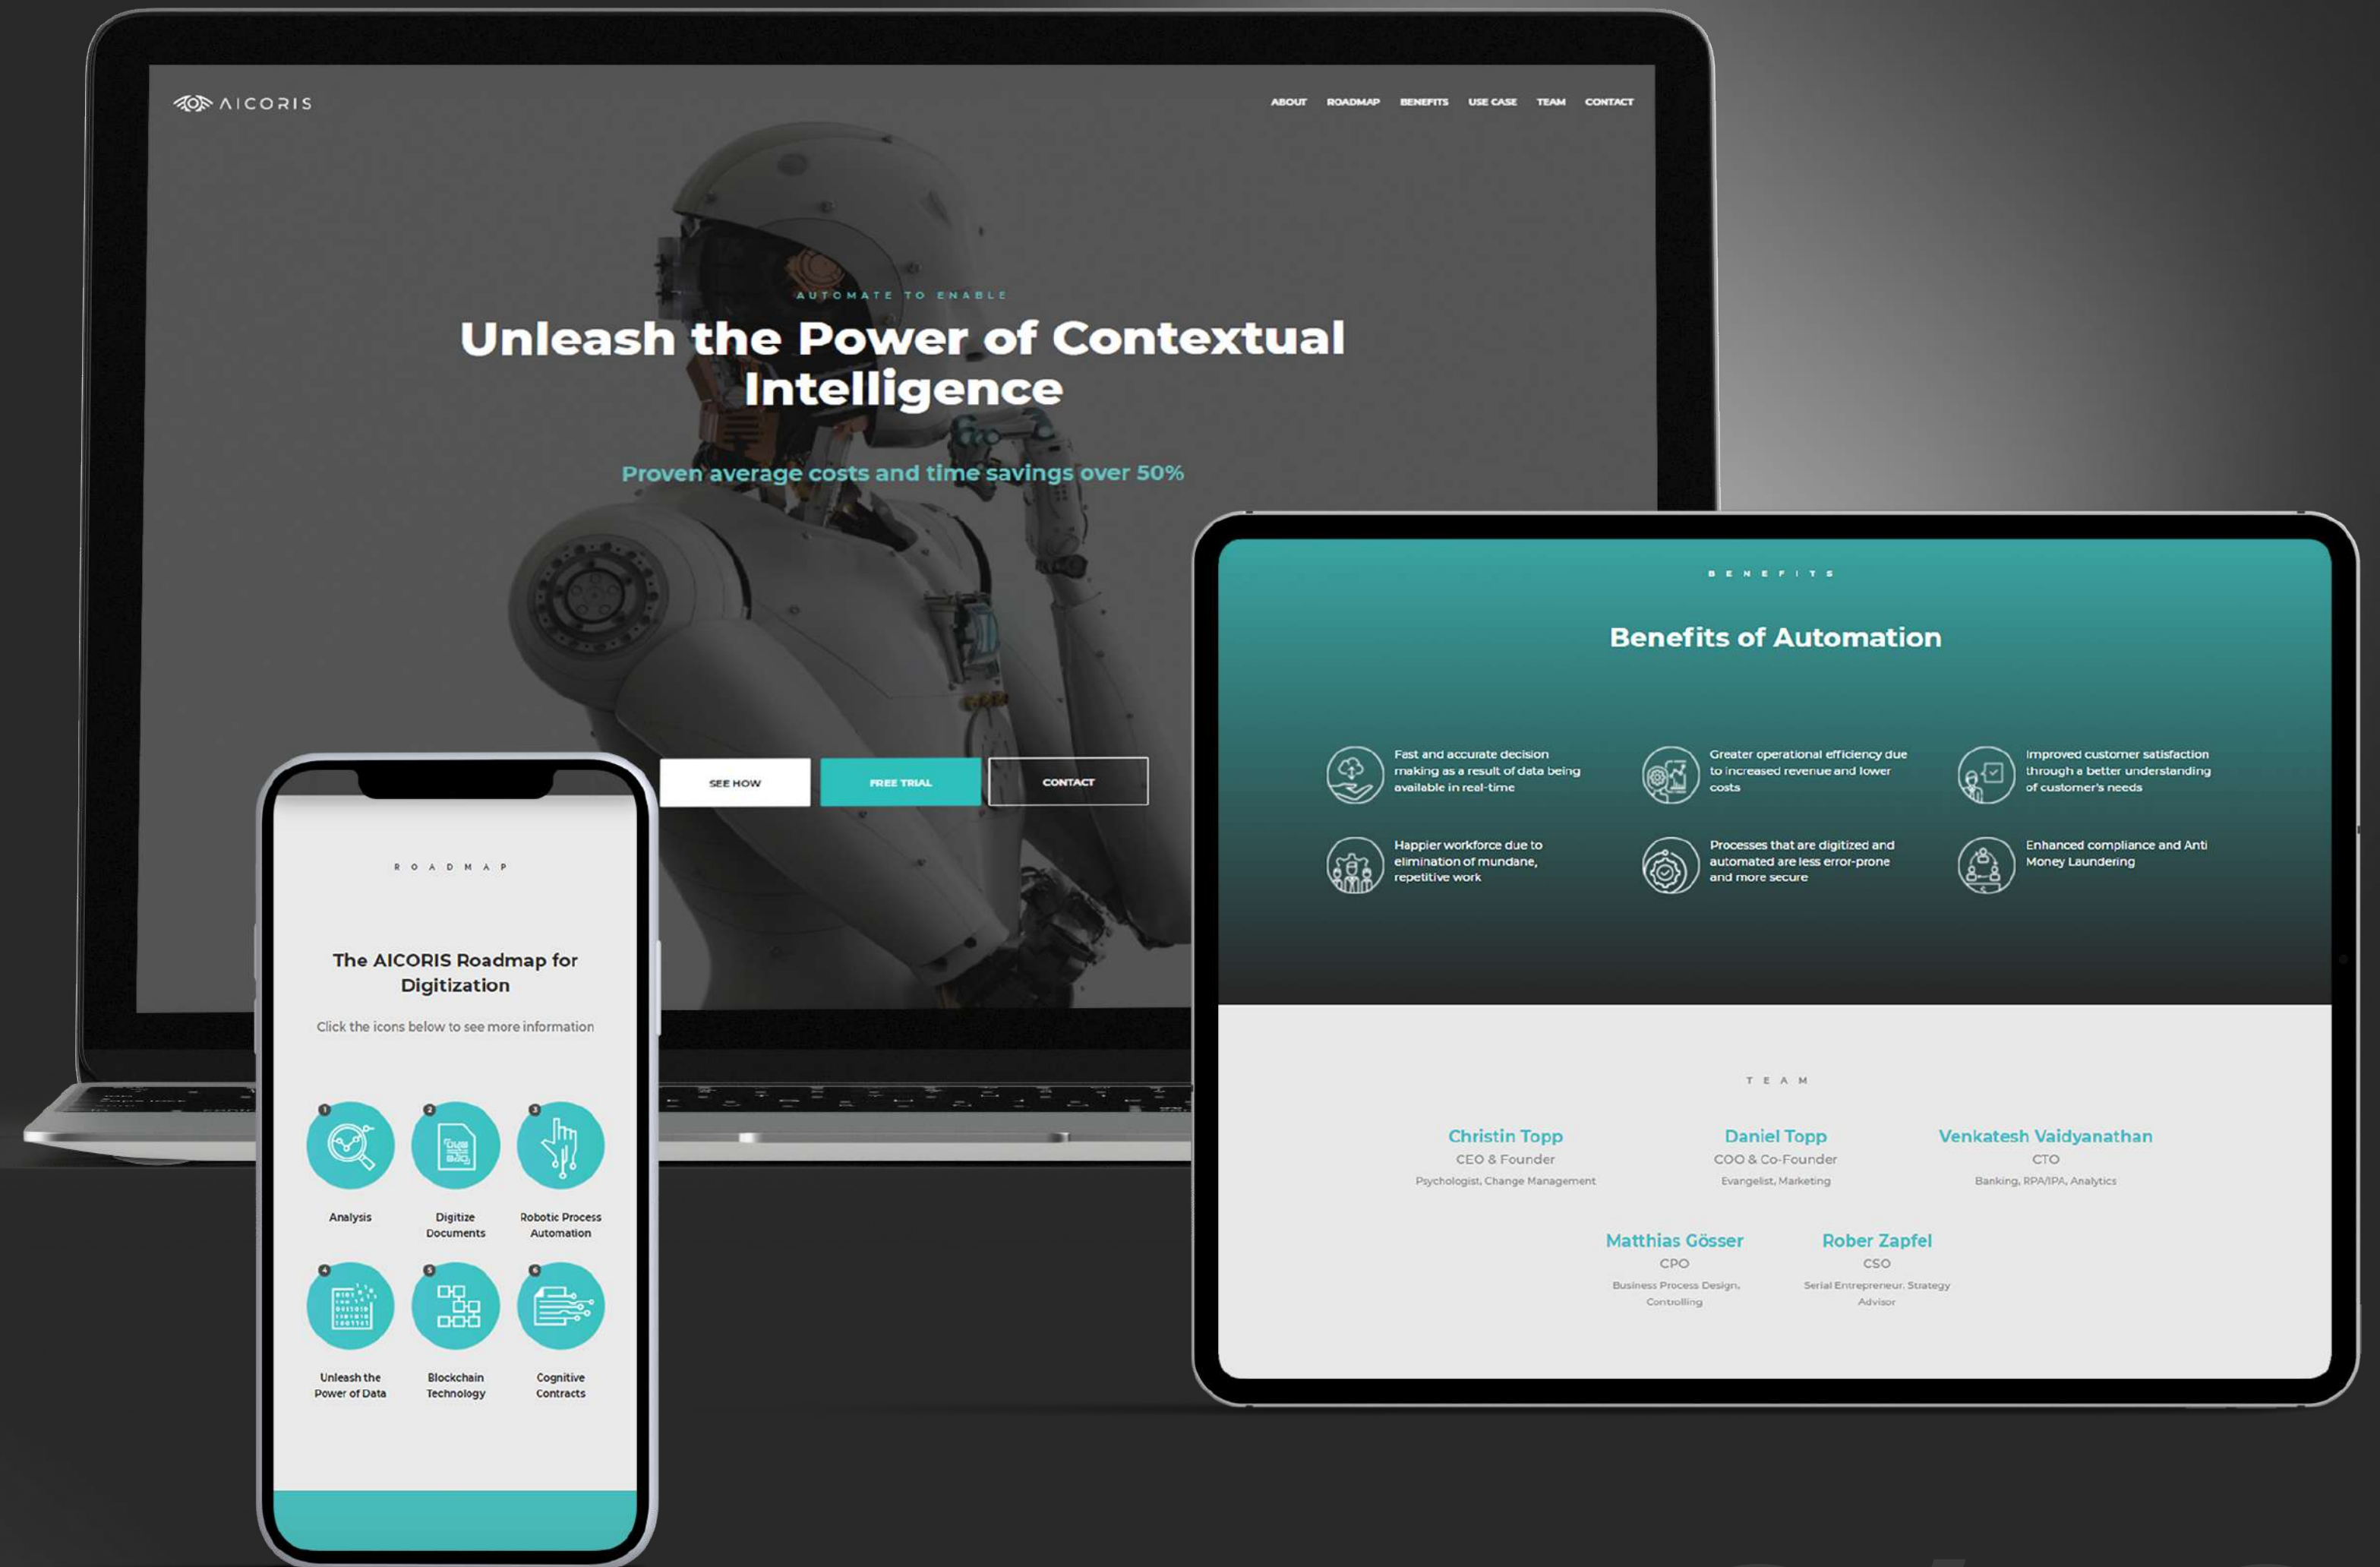

# UI/UX Aicoris

AICORIS is a company specializing in digital process automation. They replace human workers with “robot” virtual workers in excecuting mundane tasks.

Mayune has supported AICORIS since its' inception, with the initial branding and logo designed by Mayune, as well as the website and all other promotional materials.

# Why Choose Us

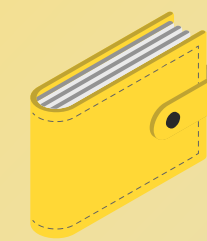

## A Plan for Success

We are a transparent agency. When we send a proposal for a potential client, we always include a full breakdown of costs and requirements. We focus on results. For us, it's all about what adds value for our customers and their business. We aim for the stars to reach the moon, meaning that we will go above & beyond to make our awesome clients and partners happy and successful.

## Think Digital

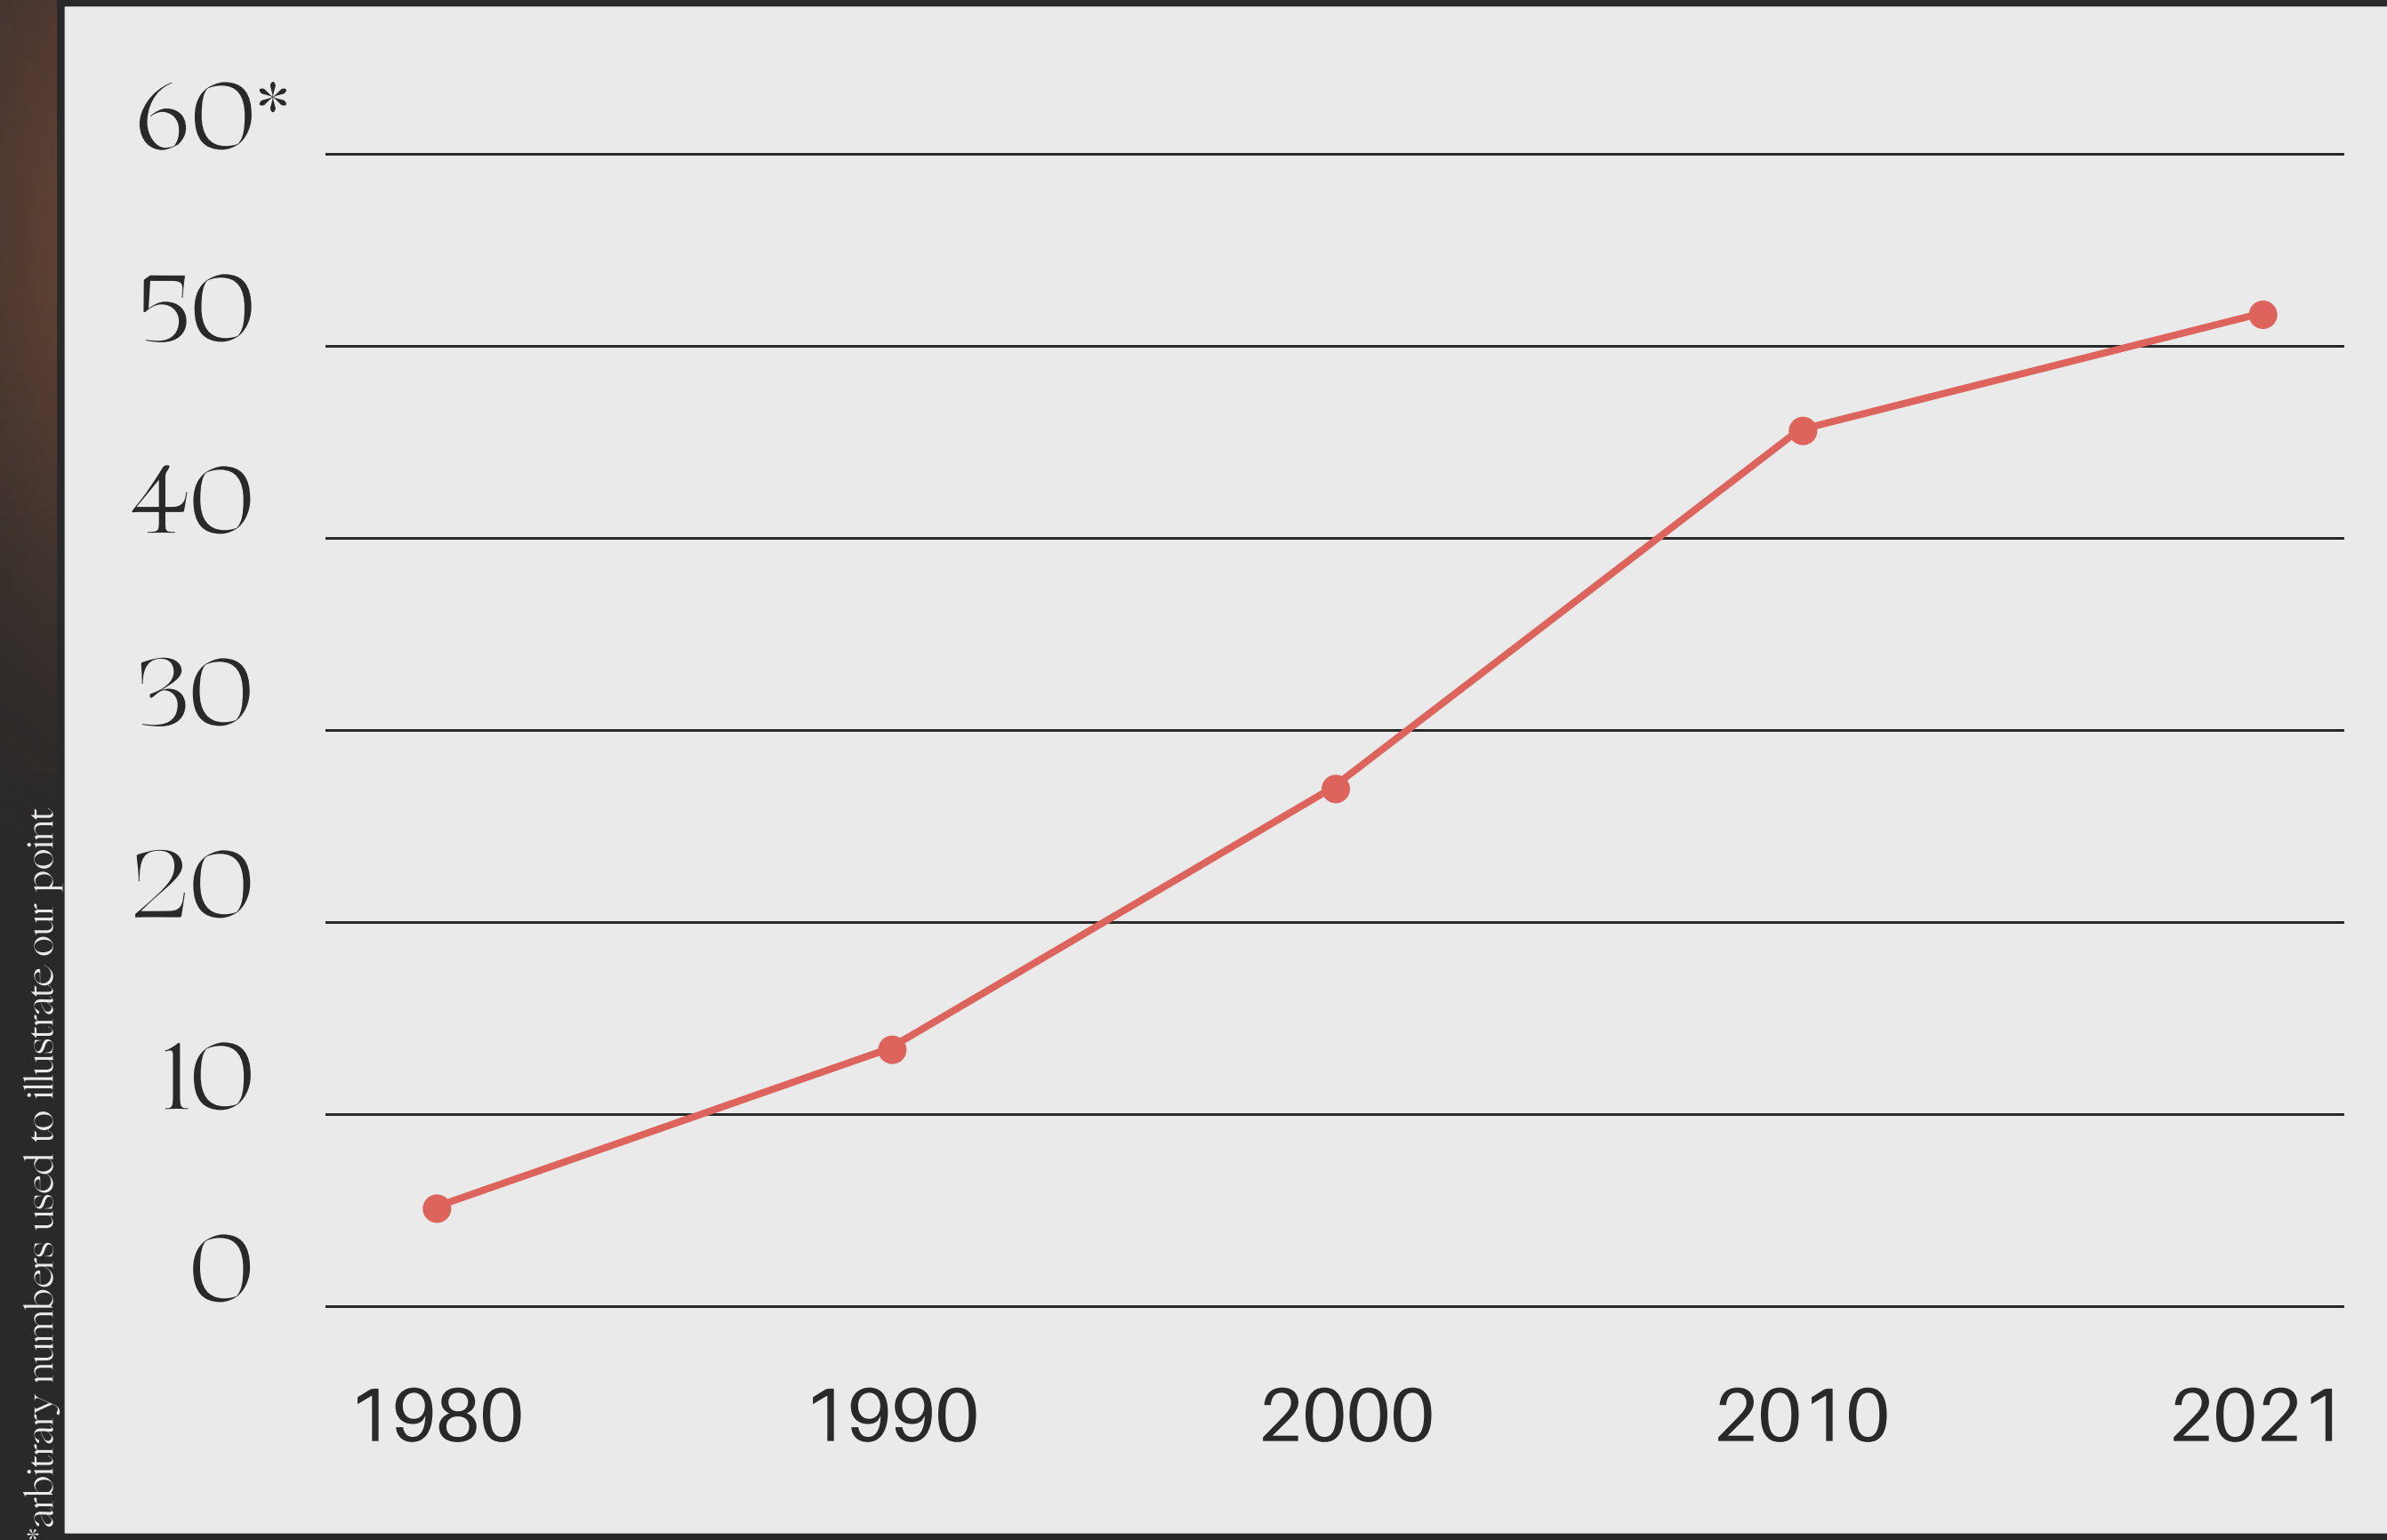

We go the extra mile towards understanding our clients & their brands in order to present them to the public eye as a quintessential company. As a digital agency in the digital age, we thrive in building websites, branding, and marketing for satisfied clients since 2017. We also maintain long-term relationships with numerous clients, working on various needs throughout the years.

## Affordable Services

We are a digital company based in Prishtina, Kosovo, where the corporate tax is 9%, meaning just on that alone we can offer a more competitive price than most European/US Based creative companies. Talk to one of our representatives today about your next project, and they can send you an estimate - see the difference!

The demand for  
digital services  
is rising
