Video & Production
Services

"

"Humans are incredibly visual and powerful, moving images help us find meaning... & video helps capture and contextualize the world around us."

-Dan Patterson

The Mayune **Vision**

The world, our lives, our views, needs and expectations are changing and evolving every day. At Mayune, we help businesses of all sizes and industries (see them) to showcase the value of their service or product in our new and ever-expanding digital age.

Out with the old, in with the new? Well, sort of...

We believe that aesthetics and taste in digital design evolves and changes just as it does in any other creative industry, be it fashion, interior design, or even automotive design.

With that in mind, we aim a lot of our focus on the experience of the end user, on the core values and goals of our clients, and on the details that make or break a visually compelling story.

And that's why we created Mayune, to offer a premium, hassle-free service with world-class visuals and online solutions.

Get in touch with us today to find out more.

What we offer

We offer high-end production of video & audio, which can range from short clips, commercials to E-learning courses. We use the latest technology with the best equipment and highly professional staff. We put all pieces of the puzzle together, to form the big picture, starting from cameras, lights, actors, director/crew, script, editing, sound, special FX and much much more.

- **Green Screen Room**

- **4K Video Capture and Editing**

- **10 Lenses, 3 Cameras**
- **Lavalier Mics, Shotgun Mics**
- **Live Production and Streaming**
- **Audio Mixing and Mastering**

Our Production **Process**

01
Discuss

We meet with you and discuss needs/ expectations, paving the way for our next steps, which ultimately will lead to an action plan.

02
Plan

We go over all of the details and create an action plan for the coming weeks/ months/years. This will be detailed and will ensure we are on the same page re our role and deliverables.

03
Mockup & Visuals

We will create some key visual components of the upcoming production, in order to get your approval for the main elements. Once this is done, we can focus on producing everything based on those core elements and visuals.
04
Produce

We produce according to plans and deliverables set forth in the previous steps. Once we have enough content to review, we will send you that for feedback. This way we do not waste time working on things before we get approval.

05
Revise and Finalize

Once we have the final product ready, we give you time to go through it and send us feedback. From there we can go through many rounds of feedback, until it is final and to your satisfaction.

06
Deliver

Once everything is finalized, we export all files and necessary components for you to use. If you need to do any last minute adjustments, we are always open to that, ensuring the final result is perfect.
